St. Laurence Church

The next meeting of the W.
A. will take place on Thursday
April 20th at the home of Mrs.
Grace, at 3 p. m. sharp. Good
attendance is requested.

Good Friday April 14th
11 a.m. Divine Service, in which
the Sunday School will take
part, followed by a sermon on
"The First Good Friday."
8 p. m. Service, and sermon on
"The Death of Christ."
Hillnville, 3 p. m. Service and
address on "The Seven Sayings
of Christ on the Cross."

Easter Day April 16th
11 a. m. Divine Service, in which
the Sunday School will take
part, followed by a sermon on
"The First Easter Day," and
Holy Communion. 7.30 p. m.
Service, sermon on "The Resur-
rection of the Saints," and
Holy Communion. All com-
municants should come to the
Lord's Table on Easter Day.

On Easter Monday, April 17,
the Boys' Club will give an
Entertainment in the Big Hall
consisting of a number of mu-
sical items, recitations, and two
comic sketches entitled, "Please
shut the Door," and "The Singo-
phone." Program commences
at 8 p. m. Admission, adults
35c, school children 25c. Pro-
ceeds for Boys' Club Camping
Fund.

F. Evanoff and family re-
turned home last week from
Edmonton.

Special Easter Music

Everyone loves good music
on Easter; we are going to help
you bring that music within
your reach. So for Easter
Week ONLY you can have your
choice of any \$1 Victor Record
in stock for 75c, and the \$1.50
records will sell for \$1.00. We
have over 100 nice records to
choose from and this offer is
only open for one week. We
will play these records for you
on our famous "Melotone" with
pleasure; if you wish to buy
the Melotone we will give you
a 10% discount during the week.
If you can't get flowers, say it
with a nice box of fresh Cho-
colates, this Easter.

Full line of Kodaks at pre-war
prices. Magazines, Papers,
Novels and Stationery.

THE KENNEDY DRUG CO.

Tomorrow being Good Friday
the stores in town will be closed
all day.

The Bank will be closed on
Good Friday and Easter Mon-
day.

OIL NEWS

Manager Marchbank, of the
West Regent Oil Co., and crew
arrived here last week and are
now busy getting things in
shape for drilling again. The
rig will be grinding away in the
search for oil, within a few days
and the well will be completed
this summer, with excellent
prospects of it being a com-
mercial proposition. There has
been a good flow of gas from
this well all winter.

The Imperial Oil crew is fast
whipping things into line and
their new derrick has been com-
pleted. Work on the housings
is being pushed along and they
will be in a position to start re-
drilling within a few weeks.

The Talpey well will be fixed
up next month, and Mr. Talpey
states that they will be drilling
again about the first week in
June.

Weather permitting, there
will be a game of baseball on
the local diamond at 2.30 on
Sunday afternoon.

Local Happenings

The Monitor Orchestra will
give a Dance, in the Big Hall, on
Monday evening April 17th,
after the show.

Dr. Agnew, Dentist, will be
in town April 14th to 19th.

Mrs. Packwood will hold a
Millinery Opening on April 12
to 15th. Read her ad.

It is reported that the crew
of the Imperial Oil well has
placed an order for \$50 worth
of strychnine, for killing the
coyotes around Misty Hills.

J. F. Kemp, of the local Bank
staff, left for Calgary last Fri-
day, having been transferred to
one of the city branch offices.

Cooperative Church

On Easter Sunday Services
will be held as follows: Sunday
School 10.30 a. m.; Morning
service at 12 noon. Horse Shoe
School at 3 p. m. Evening service
at 7.30.

At both morning and evening
services special Easter music
will be given. At the close of
the morning service Communion
will be held. After the
evening service pictures depicting
"Passion week" incidents
will be shown.

On Good Friday afternoon
Mission Band will meet at 2
o'clock for an Easter-tide service
and story.

The Annual Easter Supper of
the Ladies' Aid will be given on
Tuesday, April 18th, in the Big
Hall from 5 to 7 p. m. There
will be a place and a welcome
for you. A special feature this
year will be the recital given
by Mrs. J. E. Smith on "Jean
Valjean." This should be a real
treat, since the speaker comes
highly recommended. Tickets
are on sale at \$1.00 for adults
and 50c for children. The one
ticket will admit to both supper
and lecture. It is a rarely
economical treat. Be sure to
take the "full course route."

Mrs. Llewellyn Was Discouraged Over Her Health, Says Husband

"My wife is the very picture of health now and she tells me she never felt better in her life. We certainly believe in Tanlac at our house," said Arthur Llewellyn, 428 Alexander Ave., Winnipeg, Man.

"My wife had been in failing health for so long that I was very much alarmed about her, especially since the many things she had tried failed to do her any good. She even spent some time in the country, but this also failed to help her and she came

home utterly discouraged. I don't believe anybody ever had a worse or more stubborn case of stomach trouble than she did.

"Tanalac certainly was what she needed and she hadn't been taking it long before she was on the road to recovery. It not only has toned up her stomach so that she eats whatever she wants, but she has the color of health in her cheeks now and apparently is as strong and healthy as anyone could wish to be."

Tanalac is sold by all good druggists.

Assets And Liabilities

The importance, in fact the necessity, of any man engaged in business having an accurate statement of his assets and liabilities is universally recognized. It is essential that such a statement be revised from time to time and kept up to date, and the latest statement compared with previous ones in order to determine whether financial improvement is being effected, or if the reverse is true.

Such a statement is of first importance to the business man in all his dealings with his bank and with his creditors. Without such a statement a bank will not make loans, nor can a man establish a satisfactory rating for himself.

In determining the financial standing of a man by such a statement, which is regarded as the more important, his assets or his liabilities? It appears to be generally believed that a man's financial standing is revealed by his assets. But this is not so. Of course, his assets have a bearing on the subject, but it is his liabilities which more clearly indicate a man's financial standing.

Liabilities can only be lessened by a realization of assets. Assets, on the other hand, may shrink, frequently do in the process of realization. A statement of assets, therefore, usually represents something of greater value than is actually possessed, and allowance must be made for this. Liabilities, on the other hand, may be under-stated, quite innocently, too, because a liability may be of an indirect character and contingent on something which may never happen. But it may happen, and must therefore be taken into account.

The outstanding difficulty in Western Canada today is not that the average farmer's assets are not good, but that his liabilities are too great; that while he cannot realize on his assets at the present time except at enormous loss, his liabilities have accumulated and are not now acutely pressing.

One lesson to be learned from the experiences of the past few years is the importance of exercising care in incurring liabilities. There is such a thing as being cursed, rather than blessed, with too much credit. A liability once incurred, must be discharged, regardless of ability to realize on assets. The contracting of liabilities should therefore be guarded against all along the line, and every human precaution taken to protect oneself against the ultimate time of payment.

But it is not solely in the realm of business that a person should make a close study of their assets and liabilities, but more particularly their liabilities. Every man and every woman has a niche to fill in his or her community. In filling that niche they have certain assets and certain liabilities. They may have the assets of good health, or a splendid education, or wealth, or gifts of leadership, or inherited abilities. But they may also have the liability of an ungovernable temper, or the faculty of making enemies rather than friends, or a generally disagreeable disposition. And one such liability out-balances all assets when it comes to permanently establishing oneself in the esteem of neighbors and in the ability to render service in a community.

Cultivate your assets, and protect them, too. If you have an asset in a strong, healthy body and upon this are founding your worldly success, safeguard it. To lose health as an asset is to lose all, with nothing but liabilities left and which you would lack the ability to meet. If your main asset is wealth, it may disappear. But while cultivating and protecting your assets, give even closer heed to your liabilities. They will mar everything unless they are reduced and ultimately eliminated. Pay off that ungovernable temper, that caustic tongue, that mean disposition, just as rapidly as you possibly can.

Remember your liabilities! Keep close tab on them! Check them up frequently, and if you cannot find a lessening of liabilities you have good reason for alarm. Unless overcome, whether they be of the financial or other kinds, they will swamp you in the end.

Council of Women on Immigration

Quality, Not Quantity to be Sought in Picking Immigrants

At the concluding sessions of the Canadian Council of Women on Immigration, the council met with the sub-

committee of the Cabinet on Immigration, and presented the result of its deliberations in the form of a number of recommendations. It expressed appreciation of the statement of Hon. Chas. Stewart, minister of immigration, to the effect that a large immigration programme was considered impossible in view of the unemployment situation and endorsed the opinion that quality rather than quantity of immigration must be the first consideration in building up Canadian national life.

The council recommended that the Government should make further efforts to familiarize intending immigrants with the actual conditions in Canada and with the rules and regulations restricting admission at the ports. It also recommended that, as far as possible, every immigrant should undergo a medical and mental examination before embarkation and that a medical adviser with psychiatric training be retained on the staff of the London office.

One hundred colonies of bees, under favorable conditions, will produce twenty-two and one-half tons of honey in one season.

Minard's Liniment for the Grippe and Flu

Few Fatalities on Canadian Roads

Only Four Passengers Killed Out of Over Fifty-one Million Carried in Year

Of more than 51 million passengers carried on Canadian railways during the year ending December 31, 1921, only four were killed and 240 injured, according to statistics contained in the annual report of the Board of Railway Commissioners for Canada, tabled in the House. The total number of passengers carried during the year was 51,318,422. A total of 185,177 employees were engaged in railroad work during that period, and of this number 91 were killed and 1,314 injured.

There were a total of 1,821 accidents on railways during the year, in which 243 persons were killed and 1,938 injured, as compared with 2,093 accidents covering 254 killed and 2,330 injured during the previous 12 months.

Of the 148 persons, other than employees or passengers killed during the year 1921 in railway accidents, 64 persons, or 43 per cent, were trespassers, the report states, and of 344 others injured, 31 persons, or 36 per cent, were trespassers.

Applications to the board during the year numbered 3,401 and orders issued in the same period 1,454.

Mining Claims Bring Quarter Million

Confirmation was given at the Pas of the report of the sale of fourteen mining claims at Copper Lake to Nipissing Mine of Cobalt and New York.

The claims are the property of J. P. Gordon, and the price is said to be a quarter of a million dollars. Low-grade gold ore has been found upon several of the claims in addition to a gold pocket of extremely spectacular ore.

SHE FOUND RELIEF AFTER FIVE YEARS

An Ex-Service Man Tells How His Wife Found New Health

"I wish to testify," says Mr. R. A. F. Hughes, of Hamilton, Ont., "as to the efficiency of your Dr. Williams' Pink Pills for the following reasons: 'When I returned home in May, 1919, after nearly three years away on army service, my wife had changed from a healthy, robust woman, to one whose life was a burden and of daily duties almost impossible. Through war worries, loneliness and other factors contributed through my unavoidable absence, she was in a state of steadily undergoing what I might describe as an undermining process, for years.

"I was fully aware from her letters that I would not find her the same woman, but, when I reached home, I was terribly shocked to find her in the condition she was in. Her healthy color had changed. She seemed bloodless and her skin was sallow. She was weak and listless, and with difficulty moved about the house. She hardly ever moved out of the house as she became so short of breath and feared she would fall during one of her dizzy spells, which she said were becoming more frequent.

"The day I arrived home I visited our doctor, who is an old friend and later, through his advice, consulted with another physician of this city. Everything was done that could be done, and many of the best were prescribed and faithfully taken. As these were of no avail I trusted that time alone would suffice to build up what had gradually been undermined in the course of five years. After twelve months, conditions had become worse. Then I decided on change of air, gave up my position in the city and moved to the country. Even this did not do any good. I think it added to her depression.

"One day a friend visited us and as a result of their conversation my wife made up her mind to try Dr. Williams' Pink Pills.

"I had not much faith in what I did, but procured three boxes. This happened nine months ago. I was surprised to hear my wife say, after about the tenth day, 'I believe these pills are doing me good.' A week or so after that I certainly believed they were, for I saw color returning to her cheeks and the sallow, unhealthy color disappearing. The pills were certainly doing what you claim they will do, and of her own free will she continued them for about three months. At the end of this time she seemed quite a different woman. Life was worth living. The listlessness had gone and she could walk up the steep hill, which is half a mile long, leading to our house, without the slightest inconvenience. At this stage she discontinued the pills and she is just as well now as ever she was.

"Now, sir, I want to say I have every faith in Dr. Williams' Pink Pills, as I have had proof, and I believe that what this medicine did for my wife, it can do for others. Dr. Williams' Pink Pills from any medicine dealer or by mail at 50 cents a box, or six boxes for \$2.50 from Dr. Williams' Medicine Co., Brockville, Ont.

Children Cry for Fletcher's

CASTORIA

Fletcher's Castoria is strictly a remedy for Infants and Children. Foods are specially prepared for babies. A baby's medicine is even more essential for Baby. Remedies primarily prepared for grown-ups are not interchangeable. It was the need of a remedy for the common ailments of Infants and Children that brought Castoria before the public after years of research, and no claim has been made for it that its use for over 30 years has not proven.

What is CASTORIA?

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrup. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulence, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Children's Comfort—The Mother's Friend.

GENUINE CASTORIA ALWAYS

Bears the Signature of

Chas. H. Fletcher

In Use For Over 30 Years

THE CENTAUR COMPANY, NEW YORK CITY

A Servant of Empire

Lord Northcliffe has Accomplished Much in Few Months

During his travels Lord Northcliffe has rendered great services to the Empire. He has earned the gratitude of Australia by pressing her need for more population, he has told the blunt truth about India, he has disclosed the tolls some lives led by Britons in Malaya, and he has exposed the Palestine blunder. The French and Dutch have thanked him warmly for his tributes to their great work in the east, and he has shed much light on the obscurities of Chinese politics. A wonderful achievement in a few months!—London Sunday Pictorial.

Makes Breathing Easy
The constriction of the air passages and the struggle for breath, too familiar evidence of asthmatic trouble, cannot daunt Dr. J. J. Kellogg's Asthma Remedy. This is the famous remedy which is known far and wide for its complete effectiveness even under very adverse conditions. It is no untried, experimental preparation, but one with many years of strong service behind it. Buy it from your nearest dealer.

Baseball was played in New York as early as 1842.

Use Minard's Liniment for the Flu

Distance Traveled in Dancing

Dancers are Really Marathon Athletes

Says Statistician
Swiss statistician estimates that the average fox-trotter travels about one mile in ten minutes, while, in the case of other dances, a dancing couple cover a mile in 20 minutes.

He found that dancers, at a ball which lasted from 10 p.m. until 5 a.m., made 56,000 steps, amounting to a distance of about 30 miles, and among them were women shod in fluy high-heeled shoes who would never walk a hundred yards in the street, preferring a motor car.

A Swiss doctor, by means of a pedometer, reckoned that he had made about 6,750,000 two-foot steps in a year.

Business is Business

A train in the Western States of America was held up by bandits, who ordered the passengers to give up all their money.

One of the passengers was a Jew from New York, and when his turn came, he reluctantly drew three hundred dollars from his pocket, and, taking six, put them in his pocket.

"What do you mean by that?" asked the bandit.

"Surely," answered the Jew, "you don't mind me taking a 2 per cent. discount on a cash transaction?"

Minard's Liniment for Coughs and Colds

Belated Appreciation

Unwelcome Sultor.—"That's a lovely song! It always carries me away." She—"If I had known how much pleasure it could give us both, I would have sung it earlier in the evening."

Dye Old Curtains, Sweater Or Skirt In Diamond Dyes

"Diamond Dyes" add years of wear to worn, faded skirts, waists, coats, stockings, sweaters, coverings, hangings, draperies, everything. Every package contains directions so simple any woman can put new, rich, fadeless colors into her worn garments without danger even if she has never dyed before. Just buy Diamond Dyes—no other kind—then your material will come out right, because Diamond Dyes are guaranteed not to stretch, fade, or run. Tell your druggist whether the material you wish to dye is wool or silk or whether it is linen, cotton, or mixed goods.

When the great liner Olympic burned coal, she required the services of 229 men in her fire rooms; with oil-burning engines, 60 men do the work.

Holloway's Corn Remover takes the corn out by the roots. Try it and prove it.

A French gunpowder plant blows the fumes from its gun-cotton factories through a chimney lined with glass which resists the chemical action perfectly.

A Successful Man

Among the notable professional men of this country, who achieved great success along strictly legitimate lines was Dr. R. V. Pierce. Devoting his attention to the specialty of women's diseases, he became a recognized authority in that line.

Over fifty years ago this noted physician gave to the world a Prescription which has never been equalled for the weaknesses of women. Dr. Pierce, of Buffalo, N. Y., long since found out what is naturally best for women's diseases. He learned it by thus treating thousands of cases. The result of his studies was a medicine called Doctor Pierce's Favorite Prescription. This medicine is made of vegetable growths that nature surely intended for backache, headache, weakening pains, and for the many disorders common to women in all ages of life. Women who take this standard remedy know that in Dr. Pierce's Favorite Prescription they are getting a safe woman's tonic so good that druggists everywhere sell it in both tablet and fluid form.

Send 10c to Dr. Pierce's Branch Laboratory, 151 Bridgeport, Ont., for trial package tablets.

BEAUTY OF THE SKIN

Is the natural desire of every woman, and is obtainable by the use of Dr. Chase's Ointment. It removes all roughness and redness of the skin, irritation and eczema disappear, and the skin is left soft, smooth and velvety. All dealers, or Edmondson, Bates & Co., Limited, Toronto. Sample free if you mention this paper.

Dr. Chase's Ointment

Canada's Pressing Need Is For Establishment Of Sound Immigration Policy

The immigration policy of Canada for the future is in the making. It is among the first two or three questions now before the people of this country, and no one it better fitted to advise concerning it than is Col. J. S. Dennis, of Montreal. Col. Dennis has spent fifty years dealing more or less directly with this problem. In the service of the Dominion Government in Western Canada and later with the Land Department of the Hudson's Bay Company and for the past 21 years with the C.P.R. Department of Colonization and Development, of which he is now Chief Commissioner, his activities have been largely directed towards filling Canada's vacant places with desirable settlers, producers of wealth such as are today more than ever needed to re-establish the prosperity of the Canadian people.

In voicing the need of an aggressive and progressive colonization and development policy, Col. Dennis points out that it is the foundation upon which the superstructure of the solution of Canada's railway, industrial and unemployment problems must be erected, and he continues:

"In Canada today we have 1 mile of railway for every 226.5 of our population, and in the four western provinces, 1 mile for every 110. Compared with this, the United States has 1 mile of railway for every 404 persons, and Great Britain one mile for every 1,804.

"In the three provinces of Manitoba, Saskatchewan and Alberta, are 30 million acres of land suitable for immediate cultivation, unoccupied and non-productive, within 15 miles of each side of the railways now in operation.

"In the older provinces of Canada we have many thousands of improved farms, unoccupied and non-productive and waiting for colonists.

"The national debt of Canada today is \$3,272,000,000, or about \$275 per capita of the population, and the annual interest on this debt amounts to \$114,000,000 as compared with a total Federal revenue in 1913 of \$168,000,000.

"The census of 1911 showed that we then had a population of 1,206,612. The last census shows a population of 8,769,484, a growth that is even less than normal. What are we going to do about it? My answer is—"colonize and develop."

"When I say 'colonist,' I use the term in the broad sense of the immigration to Canada of the colonist who will occupy and make productive, available agricultural areas, and, also laborers, skilled and unskilled, who will develop our mineral and timbered areas and extend our industrial life, and finally, colonization of the necessary capital to make both of the preceding activities possible.

"During the war, and, practically, up to date, both our colonization and development have been standing still. We are now faced with the question of how we can again stimulate a large movement of desirable colonists to Canada and where they can be obtained.

"Naturally, as part of the British Empire, we should first look to obtaining the greatest possible number from Great Britain and Ireland.

"The present population of the United Kingdom is 47,000,000, but of this number, less than 4,000,000 are engaged in agriculture, and unless we are prepared to take a large number of colonists without any previous knowledge of agriculture we cannot look for the immigration of large numbers from Britain. Further, it would now seem to be perfectly clear that the United Kingdom, and particularly England, must look forward to the emigration of many millions of its people, and our policy should be aimed at co-operative action between our Government and that of the Home Country to evolve some scheme under which many of these people of the younger generation can be fitted for agricultural life in Canada by some preliminary training at home, and finishing the training here, together with final assistance to enable them to establish themselves as farmers after this training has been obtained.

"We must, naturally, look for a

COL. J. S. DENNIS

large proportion of our agricultural colonists from the United States.

"We should also look forward to the immigration of large numbers of desirable colonists from Central Europe. While it should be our aim to maintain and extend British ideals and our Canadian citizenship, we must not forget that many who have come from so-called foreign countries are today amongst our most progressive and valued citizens, and who have been, and are taking an active part to solve our national problems and are proving their willingness and desire to become good Canadians, as is proved by the fact that in one of our Western Universities, over 50 per cent of the students are of so-called foreign parentage, and that, during the war, many of our military units contained upon their rolls the names of many so-called foreigners.

"In considering the question of development, I would direct your attention to the fact that Nature has blessed us in Canada with resources of agricultural land, timber, minerals and other things which, potentially, are ample security for our vast national debt, but the possibility of taking care of and discharging that debt is entirely dependent upon our development policy. These resources, undeveloped, are of no value, and, with out men and women, cannot be developed.

"In conclusion I desire to affirm that the problems I am outlining are non-political, and that a policy for their solution must be developed on broad lines and with the assistance of all interests and must include, more or less, an open door, and the establishment of a well-considered, thoroughly staffed and well-administered, world-wide organization to make our principles known and to ensure that we shall, through the medium of colonization and development, begin now, and carry on for many years, an aggressive and progressive policy for colonization and development, through the medium of men and money, of the natural resources with which Nature has so bountifully blessed Canada."

Take Up Homesteads

In Kenora District

Many Prairie Farmers Said to be Attracted to Clay Belt Near Dryden

Many western farmers are taking up homesteads in the "Clay Belt" near Dryden, in the Kenora district, according to Agricultural Representative M. P. Cook, who claims that the absence of crop failures in this neighborhood is proving an attraction to the prairie farmers. There is still much Government land to be taken up around Kenora, he reports. Although the weather of the past year was none too favorable, sufficient feed was produced to carry over all stock. Grain, potatoes and clover, particularly the latter product, do well in the "Clay Belt" section.

Government Gets Coal Royalties
The federal treasury was enriched by \$1,833,071.71 in coal royalties from Dominion lands from April 1, 1906 to March 31, 1921. During the same period, coal royalties from school lands in Saskatchewan and Alberta totalled \$183,819.66. This information was tabled in the House of Commons.

Awful Silence of the Antarctic

The Most Desolate Portion of the Earth's Surface

Captain R. R. Evans, who was second in command of Scott's Antarctic expedition, in his book, "South with Scott," gives many pictures of the dreadful grimness of Antarctic scenery and of the awful silence. He says:

"How sinister and relentless the western mountains looked, how cold and unforgiving the foothills, and how ashy grey the sullen icefields that gird this sad, frozen land. . . . The Barrier in its bleak loneliness is probably the most desolate portion of the earth's surface, with the possible exception of the high plateau which forms the ice cap of the great Antarctic mountain ranges."

Everything there was weird: "We were marching, as it were, under the shadow of Erebus, the great Antarctic volcano, and on this never-to-be-forgotten night the Southern Lights (a form of Aurora) played for hours. If for nothing else, it was worth making such a sledge journey to witness the display. First vertical shafts ascended in a fan of electric flame, and then the shafts all merged into a filmy, pale chrome sheet. This faded and intensified alternately, and then in an instant disappeared. The awful splendor of this majestic vision gave us all a most eerie feeling."

The loneliness and stillness were almost insupportable: The awful absence of life struck strong notes within us. Even our feet made no noise at all, clad in their soft fur boots. . . . The silence was ghastly, for beyond the sound of our own voices and the groaning of the sledge runners when the surface was bad there was no sound whatever to remind us of the outer world."

Mexico Exhibits for Canada

Mexico, it is reported, will have a large display of its products at the Canadian National Exhibition in Toronto this year, and the prospects are that President Obregon and a number of members of the cabinet will be there for several days, together with the president's band, an organization of over 100 pieces.

An Answer to Several Letters.

Do you remember when I told you about the time Mr. Seal traveled and traveled to reach the End-of-the-Earth? It took him twice as long as he would have taken anyone else because, as he has no feet, he cannot walk, but has to shuffle and drag himself along on his tail flappers.

I have had several letters from readers asking what the difference is between Seals, Walrus and Sea Lions.

To begin with, there are two kinds of Seals—the Hair Seal and the Fur Seal, and it is this latter one that is so persistently hunted for its beautiful, valuable fur. The Hair Seal differs from the Fur Seal, as far as skin covering is concerned, in having no thick coating of fur under the outer hair. The Sea Lions, which are very large, are often wrongly called Sea Bears. The Sea Lion is a hair-seal, while the Sea Bear is a fur-seal belonging to a specifically different group. In spite of their formidable appearance Sea Lions are timid creatures, easily led and as easily driven even by such trivial means as threatening them with waving flags and spread umbrellas. They are hunted for their oil and other body products, and not for fur.

As for Walrus, though related to the great Seal family they are very different, being bull-like in form and extremely clumsy. While young they are clothed in faded brown fur, but, losing this as they grow, the older ones are almost naked. Their greatest pride lies in a pair of enormous ivory tusks, while, strange to say, the tusks of the female are much longer than those of the male. They dig with their tusks for clams and mollusks (though they also eat seaweed), and these are used as well for climbing over the ice covered rocks and as weapons of defense.

The whole Seal family is distantly related to the Bear. As far as their life habits are concerned, Seals, Sea Lions and Walrus live in very much the same way. Perhaps you remember what Mr. Seal told Stella long ago when he went to see her with the wish tucked away down in his old Seal heart to be very brave. Do you remember his reason?

Well, I'll tell you. Mr. Seal then said to our little Wishing Fairy: "We old family Seals keep our wives (for we have more than one) on chosen ice ground, and then a lot of crazy young boy Seals who want to play and fight and tussle, because they haven't sense enough to do anything else suddenly come along. They are so full of spirits that they change all our peace and quiet into a perfect riot and try to break up our families, and we old fellows feel a little out of it. I don't like to be away from my wife so as to be able to protect my family."

Although spending most of their time in the sea, once a year all the bulls pick out guarded positions on land, and it is a matter of jealousy, pride and much fighting for each to try to induce the greatest number of cows (as Mrs. Seal is called) to share each special province. The young bulls are called bachelors, and these, whose love life is as yet not become battle scarred by many seasons of fierce fighting, are the ones most hunted for their pelts.

Pups, as he young of Seals, Sea Lions and Walrus are called, have a very hard babyhood, for, oddly enough, instead of instinctively taking to their life in the water they have to be severely taught to swim by their mothers. I say severely, because there is nothing gentle or tender in those swimming lessons! The backward and stupid are left to shift for themselves or die!

Lure Of The North Calls Explorer Leden Despite Previous Disasters

Arctic exploration will finance itself in the next expedition to the large islands west of Greenland and the 40,000 square miles of unknown territory north of Hudson's Bay. It is being organized by Christian Leden, who has made four trips into the north on two of which he met with disaster when his ship and supplies were lost. This time he intends to found a scientific colony which will be in constant communication with the outside world until his work is accomplished.

Mr. Leden has spent many years with the Eskimo tribes, studying their language, music, religion and traditions. He has done work for the University of Christiania and for the Canadian Government, and in the museum at Ottawa is a splendid collection he made showing Eskimo culture and habits of living. His expedition will probably leave in June, either from New York or some European port. He will take with him geologists to estimate the vast stores of minerals about which the natives have told him, and to see if there is in them anything of value which might be exported; botanists to study the plant life of the northern summer, and archaeologists to dig among the strange stone ruins which have been found by his fellow countrymen, Captain Sverdrup, evidently built by white men in a place where white men have never been known to penetrate. He has mapped out for himself a fascinating trip that will be, he hopes, do much to reveal the secrets of this northern land where white men have entered and disappeared leaving behind them descendants who show unmistakable evidence of their mixed ancestry.

The expedition will be untrammeled by the requirements of any scientific institution, for Mr. Leden expects to secure sufficient capital without appealing to the usual sources for help, and after he gets

there he is to try the unusual experiment of maintaining his base by exporting things of sufficient value to pay for the constant trips of his supporting ship between the north and civilization. Stefansson thought it could be done by maintaining reindeer farms. Mr. Leden is going to try it, using oils and other products of the country.

"People have a misconception about the Arctic," says Mr. Leden. "It is beautiful. Even in the winter it is lovely, and its fascination always draws explorers back to it. And in the summer it is a paradise. The summer lasts only from the middle of July to the middle of August, but in those weeks it never freezes. The air is full of birds, trees are in full leaf, flowers bloom, insects sing everywhere and the flowers are more fragrant and the grass is greener than anywhere else in the world. The Arctic pays in its short summer for all the desolation of the winter. But even in winter there is a sense of freedom from the ties of civilization, freedom from worry, that holds you. There are no landlords, no coal bills—we don't use fuel, don't need it."

Mr. Leden's former work has been mostly in anthropology and ethnology. From 1913 to 1916 he spent northwest of Hudson Bay, living in an Eskimo village. The inroads of civilization are beginning to be felt even in that far-off country, and he thinks that in time the true race traditions and expressions will have disappeared or be changed by the ideas taken into the country by trappers and missionaries. He wants to preserve as much of this original culture as he can, because of its value to science, for already he has established by a study of their music that the Eskimo and the aboriginal races of the Americas are from the same root race.

Protecting the Potato Crop

Steps that Should be Taken in the Early Stages of Growth

"The leaves of the potato vine must be kept intact and in a thrifty condition if a maximum crop is to be obtained, and both insects and diseases should and can be fought and conquered if the well-known and thoroughly tested preventives are used," says the Dominion Horticulturist. Spraying for the potato beetle should not be delayed until the vines are badly injured. The longer the spraying is delayed the greater the loss will be. Paris green and arsenate of lead are two of the best poisons to use. Paris green should be mixed in the proportion of eight ounces to forty gallons of water with about four ounces of lime added to neutralize the effect of free arsenic on the foliage. If the vines are wet, apply one pound of Paris green to fifty pounds of slaked lime, land plaster or any perfectly dry powder. Arsenate of lead paste used in the proportion of two to three pounds to forty gallons of water, or powdered arsenate of lead at the rate of one and a half pounds, adheres better to the foliage than Paris green and is a good poison to use. Spraying with Bordeaux mixture and arsenate of lead will control the cucumber flea beetle, which, owing to its smallness, sometimes escapes notice, but is indicated by the presence of many small holes in the leaves. Bordeaux mixture will also prove effective in the prevention of early and late blight. A formula for making the mixture is given by the Dominion Horticulturist in his bulletin on "The Potato in Canada," which can be had on application to the Publications Branch at Ottawa.

Princess Mary's Hospital Training

Did the Princess bath my baby? was a frequent question in a London hospital for sick children where Princess Mary trained for two years. There she bathed at least one baby a day during a portion of her training, with the resulting question from anxious mothers, each desirous that her baby should be so distinguished. On beginning her hospital training the Princess went straight away to her duties of bedmaking, washing and feeding the babies in the medical ward, and so on, to the more advanced stages of medical treatment, including assisting at operations.

Soothes Irritable Throat, Relieves Bronchitis Quickly

No Drugs to Take, No Medicine to Upset the Stomach. Just Breathe "CATARRHIZONE." Count ten—a hard cold is relieved by Catarrhizone—wait one minute and you will feel its soothing influence on a sore irritated throat. No failure with "Catarrhizone"—it is effective because you can breathe a healing vapor to the very spot that needs help. The big thing to remember about Catarrhizone is this—you just breathe a healing piney vapor that is rich in the purest balsams, that is full in the greatest healing agents known to science. This wonderful vapor dispels all soreness, kills all germs, gives nature a chance to completely destroy the disease. Colds and throat trouble can't last the pure healing vapor of Catarrhizone is breathed. Catarrh will disappear, bronchial attacks will cease, coughs and winter ill will be a thing of the past. Complete outfit lasts two months, price \$1.00, smaller size 50c, sample size 25c, all dealers, or the Catarrhizone Co., Montreal.

The Homesteaders

— BY —

ROBERT J. C. STEAD

Published By Special Arrangement With the Author.

(Continued)

"I haven't played the game fair with you two," he said, "and I want to say so now. Perhaps it would be truer to say that I played the wrong game. Twenty-five years have proved it was the wrong game. Now, without a penny, I can start just where I started twenty-five years ago. The only difference is that I am an old man instead of a young one. I'm going to take another homestead and start again, at the right game, if Mary will start with me."

She put her hand in his, and her eyes were bright again with the fire of youth. "You know there is only one answer, John," she whispered.

Harris called Travers over from the group of men. "There's one thing more," he continued. "When I started I had only a wife to keep and I don't intend to take any bigger responsibility now. Allan will be having a homestead of his own. Jim Travers, I am speaking to you! I owe you an apology for some things, and an explanation for some things, but I'm going to square the debt with the only gift I have left."

The light breeze tossed the hair of Beulah's uncovered head, and the light of love and health glowed in her face, and thrilled through the fine symmetry of her figure.

"Take her, Jim," he said. "She is a godly gift," said the young man reverently.

Anaemia

Thin, watery blood is no more nourishing than thin, watery milk—skim milk.

But you can soon enrich thin blood, overcome the anaemic condition and build up the whole system by using Dr. Chase's Nerve Food.

Mrs. F. G. Simmons, 42 Curtis St., Brantford, Ont., writes:

"For about eight years I suffered from anaemia. My circulation was poor, my gums and lips were pale, and my hands and feet were always cold. I was nervous and unable to sleep well. I had frequent headaches, seemed restless and really worried or irritated. There was a buzzing sound in my ears. Indigestion was also one of my complaints, and I often was attacked by weak spells. I went to a doctor, who told me I was anaemic, but as I did not get any better I decided to try Dr. Chase's Nerve Food, and after the first box I felt brighter and my headaches completely disappeared. I continued using the Nerve Food for quite a while. I am quite well now, and cheerfully and gratefully recommend Dr. Chase's Nerve Food to people suffering as I did before and to use this splendid medicine."

Dr. Chase's Nerve Food, 50c a box, all dealers, or Edmondson, Bates & Co., Limited, Toronto.

W. N. E. 1415

"You think so now," said her father. "You know nothing about it. In twenty-five years you will know just how great a gift she is—or she will not be worthy of her mother."

Harris and his wife were gazing with unseeing eyes into the mountains when Arthur handed them a letter. "It came in the mail which the boys brought out this morning," he said, "and I forgot all about it until this minute."

It was from Bradshaw. Harris opened it indifferently, but the first few lines aroused his interest, and he read it eagerly to the end.

"My dear Harris," it ran, "on receipt of your telegram I immediately opened negotiations through my connections looking to a sale of your farm with its crop and equipment complete as a going concern. I succeeded in getting an offer of the \$10,000 you set on it, and had all the papers drawn up, when I discovered that among us we had made a serious omission. You will remember that a good many years ago, when you were taking on some fresh obligations, you transferred the homestead to me, with your name. I assured the purchaser that there would be no difficulty about getting title from your wife, but as all the buildings are on the homestead, he would agree to nothing better than paying \$2,000 for the rest of your land, leaving the homestead quarter, with the buildings, stock and implements, out of the transaction. As his price seemed a fair one for the balance of the property, and as I assured your need of the money was urgent, I closed a deal on that basis, cashed the agreement, and remitted the proceeds to you at once by wire. I trust my actions in the matter meet with your approval."

— Yours sincerely, —

"George Bradshaw"

Harris placed the letter in the hands of his wife. She tried to read it, but a great happy envelope came to her as a flood and the typewritten characters seemed to swim before her. "What does it mean, John?" She asked, noting his restrained excitement. "What does it mean?"

"It means that the homestead quarter was not sold—after all—that it is still yours, with the buildings, and machinery, and stock, and this year's crop just ready for cutting."

She raised her eyes to his. "Still ours, John?"

In the rapid succession of events everyone seemed to have forgotten, or disregarded, Gardiner. But at this moment the doctor came rushing out of the house.

"Gardiner's gone!" he exclaimed, as he came up to the men.

Some of the party removed their hats.

"Oh, not that way—not that way!" exclaimed the doctor. "I mean he's gone—skipped—beat it if you understand. Most extraordinary! I was taking his pulse. It was about normal, and he seemed resting easier, so I slipped downstairs for the antidote. When I went back—I was only gone a moment—there wasn't sight or sound of him."

The men stared at each other for a moment; then followed the doctor in a race for Gardiner's room. They found it as he said. There was neither sight nor sound of Gardiner.

Sergeant Grey conducted a swift examination, not of Gardiner's room, but of the one in which Allan was lying. He was rewarded by finding the little slip of paper, with a few crystals of powder still clinging to it. The coroner examined the crystals through his magnifying glass; then, somewhat dubiously, raised them on a moistened finger to his tongue, and after a moment's hesitation swallowed in an impressive, scholarly fashion.

"Saacharm album!" he exclaimed. "Common white sugar! Most extraordinary!"

But Sergeant Grey was at the open window. It was only an eight-foot drop to the soil earth, and to the policeman there was no longer any mystery in Gardiner's disappearance. The mock suicide was a carefully planned ruse to be employed by Gardiner if the worst came to the worst. At that moment the sound of horse's hoofs was heard on the gravelly road, and three hundred yards away Gardiner dashed through a gap in the trees that swirled the base of the hills. He was on the policeman's horse, and riding like wild fire. "I want all of you men, and a horse for each," said Grey quickly, turning upon them like a general marshalling his officers. "There are a dozen different trails he may follow, and we must put a man on each. I will give immediate pursuit, in the hope of riding him down before he can throw us off the scent, and I will leave it to you, Mr. Arthur, to organize the posse and scour the whole country until he is located."

At Grey's first words two men had rushed to the corral, and were already saddling horses. The first and fastest was placed at the command of the policeman, and in a minute he, too, was riding broad-neck into the hills. But the delay was enough to give Gardiner almost a mile's lead, and the Government horse was a match for any on the ranch.

Grey knew that the main road, if followed far enough, dwindled into a pack trail, which in turn seemed to close itself in the fastnesses of the mountains, but in reality opened into a pass leading through the range. He gave Gardiner credit for knowing as much, and concluded that the fugitive would make a bolt straight through the mountains. There was no time to watch for tracks; his chance to ride this man down depended entirely upon speed. If he mis-calculated, and Gardiner, instead of

making for the pass, sought refuge in the mountains, the posse would certainly locate him or starve him into surrender. So the officer urged his horse to the limit and galloped straight into the mountain battlements ahead of him.

An hour's hard riding brought him into a tremendously rough country, where the trail at times was nothing more than narrow dells or ledge, and sheer walls of rock rose thousands of feet above, their giant edges cutting the blue sky like the teeth of a mighty saw. Far below, a ribbon of green and white, the river rolled in its canyon. Here and there a thin stream of water sprayed down the mountain side, cutting a damp treacherous belt across the trail. But at one such spot Grey's heart leaped within him, for there, unmistakably clear in the thin soil and soft rock, were the marks of a horse's shoe, not an hour old. A few minutes later he saw Gardiner swinging round a spur of rock half a mile further up the pass.

The policeman began to watch the moist spots for the tell-tale hoof prints, and invariably their evidence revealed itself. He knew now that he had guessed Gardiner's course correctly, and it was a matter of minutes until he should ride him down. He wondered whether the man was armed or not; it would be an easy trick to hide behind a rock and pick the policeman off as he rode by.

Suddenly, at a turn in the path, his eye caught a sight which made him throw his horse back on his tracks. A sheer precipice fell away a thousand feet below him, and beclinging cliffs cut off the sky above. Across the path trickled a little stream. And there in the stream, so clear they could not be misread, were the marks cut by a horse's feet sliding over the precipice.

The policeman dismounted carefully. There was scarcely room for him to pass his horse on the narrow ledge. Where the stream had worn it it sloped downwards at an uncomfortable angle. He knelt beside it and traced the marks of the shoe-calks with his finger. They led over the edge. Eighteen inches down the mountain side was a fresh scar where steel had struck a projecting corner of rock.

A thousand feet below the green water level and swirled in the bed of the canyon.

The End

Business on the Mend

Rise in Price of Wheat Creates a Better Feeling

There is a decided note of optimism becoming apparent throughout Western Canada.

The immediate cause of the better feeling is the marked rise in the price of wheat. To nothing will Western Canada react more quickly, to little else will it react in a general way at all. The natural born pessimist, of course, says that the rise in the price of wheat is due to special and temporary causes, and that the improvement, whilst an effect, cannot be expected to continue.

The price of wheat may be to some small extent a premature or temporary phenomenon, but it is nevertheless part of a general process observable in every field of basic production the world over, and already casting its reflection upon railway business and shipping and finance, even if it has not yet reached the more subsidiary and dependent industries.

Our prosperity here rests directly upon basic production and its necessary transportation and distribution facilities. We feel the pulse of improvement first and others may take it from us that permanent improvement is on the way, rather than that we should take it from them that it is an access of fever on our part, because they are still in the dumps.—The Winnipeg Tribune.

USEFUL FOR OVER 500 PURPOSES

Gillett's Lye can be used for so many purposes that their enumeration here would be impossible. For example, Gillett's Lye can be used for making soap, in washing dishes, also as a disinfectant. For softening hard water. As a means of removing grease and smoke stains. These are only a few of its many uses, but they serve to indicate what has made Gillett's Lye such a general household utility to-day.

Decline Substitutes.

The Interloper

"In time of trial," said the preacher, "what brings us the greatest comfort?"

"An acquittal," responded a person who should never have been admitted.—Standard Chaparral.

No Reply

Sandy was fishing, and Donald, who was passing, asked:

"Hoo are the fish today, Sandy?"

"I dinna ken," answered Sandy. "I dropped them a line, but so far I've nae reply."

Hail to the Silk Hat, the Herald of Spring.

Nimble fingers, a sense of color, and by that mysterious alchemy the key to the secret of which only a woman holds, a width of ribbon is transformed into an adorable chapeau, becoming wonderfully to the fair face beneath it and harmonizing perfectly with the tints of its wearer's eyes and hair.

Silk hat brims are either off the face with irregular outlines or else they are narrow, and the crowns are usually rather high but indented here and there.

The wood shades are much shown for the smaller hats especially, while orchid seems to be popular for the large hats for southern or midsummer wear.

WARNING! Say "Bayer" when you buy Aspirin.

•Unless you see the name "Bayer" on tablets, you are not getting Aspirin at all. Why take chances?

Accept only an "unbroken package" of "Bayer Tablets of Aspirin," which contains directions and dose worked out by physicians during 22 years and proved safe by millions for

Colds	Headache	Rheumatism
Toothache	Neuralgia	Neuritis
Earache	Lumbago	Pain, Pain

Handy "Bayer" boxes of 12 tablets. Also bottles of 24 and 100—Druggists. Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monocyclic Acid of Salicylic Acid. While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

Hon. Chas. Dunning Forms New Cabinet In Saskatchewan

Regina.—Hon. W. M. Martin held a conference with His Honor H. W. Newlands, and recommended that Hon. Chas. A. Dunning be called upon to form the new Government necessitated by Mr. Martin's resignation. Mr. Dunning was then called upon by His Honor to undertake this duty. After the new cabinet had been sworn in, the portfolios were announced as follows:

Hon. C. A. Dunning (Moose Jaw County), Premier, President of Council, Provincial Treasurer and Minister of Railways.

Hon. A. P. McNab (Saskatoon City), Minister of Public Works and Minister of Telephones.

Hon. S. J. Latta (Last Mountain), Minister of Education and Minister in charge of the Bureau of Publications and the King's Printers Office.

Hon. C. M. Hamilton (Weyburn), Minister of Agriculture and Minister of Municipal Affairs.

Hon. J. A. Cross (Regina City), Attorney-General and Minister in charge of the Bureau of Child Protection.

Hon. J. G. Gardiner (North Qu'Appelle), Minister of Highways and Minister in charge of the Bureau of Labor and Industries.

Hon. J. M. Uhrich (Rosthern), Provincial Secretary and Minister in charge of the Bureau of Public Health.

The realignment of portfolios among the old members gives Mr. Hamilton two important departments, agriculture and municipal affairs.

Mr. Dunning, in addition to being premier and president of the council, retains his former portfolio of provincial treasurer and adds to that the department of railways, temporarily held by Mr. Martin since the retirement of Mr. Knowles.

Mr. Latta continues as minister of education and will supervise the office of publications and the office of King's printer. He has been in charge of the last two branches of work for some time, though the publications branch does not become a bureau until May 1, under the act passed at the last session of the House.

The important office of attorney-general held by Mr. Martin passes over to one of the new members of the Government, Col. J. A. Cross, of Regina City, who will add to his duty the work of supervising the newly-created bureau of child protection.

USE SLOAN'S TO EASE LAME BACKS

YOU can't do your best when your back and every muscle aches with fatigue.

Apply Sloan's Liniment freely, without rubbing, and enjoy a penetrative glow of warmth and comfort.

Good for rheumatism, neuralgia, sprains and strains, aches and pains, sciatica, sore muscles, stiff joints and the after effects of weather exposure.

For forty years pain's enemy. Ask your neighbor. Keep Sloan's handy. At all druggists—35c, 70c, \$1.40. Made in Canada.

Sloan's Liniment (Pain's enemy)

First, Doctors — Then a Skin Specialist Then a bottle of D.D.D.

We shall publish every week for the benefit of skin sufferers in this section, a few words written by Canadian people—some of them of prominence—all heartiest stories of relief from terrible suffering.

A sentence or two from a letter from J. W. Corns, 21 Melbourne Ave., Toronto, a man of fine standing. "I have been a sufferer for two years with eczema on the legs and ankles. I tried three or four different doctors. I went to a skin specialist. All of no use. I used one dollar bottle of D.D.D.—that is all. Today I am perfectly well."

If you wish to try a bottle of this Prescription that Mr. Corns found so remarkable, we will guarantee relief on the first bottle, or your money back. Stop that itch today. \$1.00 a bottle. Try D.D.D. Soap, too.

D.D.D.

THE Lotion for Skin Disease

If you cannot call at a local dealer's write to the D.D.D. Laboratories, Dept. W-176, 21 Legal Ave., Toronto, and they will send you free trial bottle if you enclose life, which merely pays for postage and packing.

W. N. U. 1415

HON. CHAS. DUNNING,
Premier of Saskatchewan

though, like the bureau of publications, the latter does not become effective until May 1.

Hon. J. G. Gardiner, another new member of the Government, succeeds Hon. Chas. Dunning as minister of highways, and takes over from Mr. Dunning supervision of the bureau of labor and industries.

The provincial secretaryship, which has been given to the third new member, Dr. J. M. Uhrich, of Rosthern, was formerly held by Hon. W. E. Knowles, and upon the latter's retirement was temporarily held by Mr. Dunning. Dr. Uhrich will also have charge of the bureau of public health, formerly supervised by Mr. McNab.

German Tax Scheme Approved

Finance Minister Says Burden Imposed is Without Parallel

Berlin.—"No nation ever wrote taxation legislation of such magnitude on its statute books as does Germany now that the Reichstag has given its final approval to the Government tax scheme," said the finance minister, Andreas Hermes, to the deputies, in thanking them after the conclusion of the third reading of the measures which approves a compulsory loan, of one billion gold marks and the adoption of which automatically makes effective fourteen major tax laws.

Herr Hermes declared the tax burden imposed on the German people was without parallel in history and would demonstrate to the world that the German people were prepared to assume the financial obligations growing out of the last war.

The taxation laws, which received the Reichstag's final approval have been in the making for more than a year, yet hardly anyone in Germany possesses even an approximate idea of the extent to which the individual is affected directly or indirectly by the various taxes which the Government's experts have devised in an attempt to discover previously unlooked for sources for revenue.

Enters Name for Henley Race
Duluth, Minn.—Walter Hoover, of the Duluth Boat Club, amateur single scull champion, has entered his name in the English Henley race to be staged on the Thames, in London, June 30, it was announced here.

Sailor Drowned
St. John N.B.—While the C.P. steamer Tunisian was en route to this port from Glasgow, Scotland, a young Scottish sailor named Innis fell overboard and was drowned. He was a native of Glasgow and married.

Angora Accepts Peace Terms
Constantinople.—The Turkish Nationalist Government at Angora has accepted with reservations the armistice propositions recently made by the Allies, the Allied powers' representatives here have been informed.

Buenos Aires—Laurence Ginnelli, who came here last year as an envoy from the Dail Eireann seeking recognition of the Irish republic, has closed the "legation" here and sailed for Ireland.

Pay Last Tributes To Sir John C. Eaton

Public Demonstration of Mourning is Witnessed in Toronto

Toronto.—All classes of the community from shopgirls and laborers to legislators and members of the judiciary, gathered to pay last tributes of respect to the memory of Sir John C. Eaton, whose body was laid to rest in the family mausoleum, a stately structure of Scottish grey granite in Mount Pleasant Cemetery here. Representatives of the Federal Parliament, the Ontario Legislature, Toronto city council, the military, the judiciary, the universities, the hospitals and practically all religious denominations attended the funeral service in the Timothy Eaton Memorial Methodist Church, and followed the remains to the cemetery.

Toronto perhaps never before witnessed such a public demonstration of mourning for the passing of one of her citizens. It is estimated that 50,000 people at one time were banded in the vicinity of the church, waiting for an opportunity to enter. The procession was uninterrupted for four and a half hours when the doors closed to prepare for the funeral service. Four prominent ministers, representing different denominations, had a part in the service, including the pastor of the Eaton Memorial Church, Rev. C. A. Williams.

Sir John Craig Eaton was regarded as Toronto's biggest multi-millionaire. The interests of which he was the head has ramifications in many parts of Canada, Great Britain and foreign countries. He was prominent in philanthropic and patriotic work. He was born in Toronto in 1876, and succeeded his father as head of the company in 1907.

Lady Eaton and four young sons and one daughter survive; also Mrs. Timothy Eaton, mother of Sir John; one brother and two sisters.

Report Was Exaggerated

London.—Winston Churchill, the colonial secretary, stated in the House of Commons, that the steamer Upton which was seized off the Irish coast last week by raiders, who stowed its cargo in some unknown place, contained not more than 25,000 rounds of ammunition. The vessel originally was believed to have carried 500,000 rounds.

Japanese Delegates to Genoa

Tokyo.—The appointment of Baron Hayashi, ambassador to Great Britain, Viscount Ishii, ambassador to France, and Kogo Mori, financial commissioner in London, as the Japanese delegates to the Genoa conference, has been officially confirmed. Baron Hayashi will head the delegation.

Government May Appoint New Commission For Federal Grain Inquiry

Milk Famine in London

Believe Supply Held Up On Account Of Price

London.—There is a milk famine in London and it is believed to be the result of the recent reduction in price from ninepence to fivepence per quart. It is thought the farmers are holding up the supply, as they complain of the large margin between the price they receive for milk and the retail price. Sir Arthur Griffith-Boscawen, minister of agriculture, questioned in the House of Commons on the matter, admitted that the situation was serious but said he was unable to fix or control milk prices.

DO YOU SMOKE TOO MUCH?

There are many men on whose heart and nervous system tobacco produces the most serious results. It causes palpitation, pain in the heart, irregularity of its beat, makes the hands tremble, sets the nerves on edge, causes shortness of breath and loss of sleep.

To counteract this demoralizing influence on the heart and nerves there is no remedy so equal

MILBURN'S
HEART AND NERVE PILLS

They make the heart beat strong and steady, restore tone and vigor to the nerves, and remove all the evil results caused by the tobacco.

Mr. Frank Lutes, 71 Terrace Hill St., Bramford, Ont., writes:—"I had been troubled with palpitation of the heart for a number of years, and it spells it would bother me a lot. The doctor told me it would stop on me sometime if I did not cut out tobacco. When I would get a spell my heart would pound, and I would break out in perspiration, and get so weak I would have to sit right down and quit my work; also in the night I would wake up and my heart would be going, I should say, about 120 beats a minute. About three years ago I got a box of Milburn's Heart and Nerve Pills, took them, and found they did the job. I am feeling fine and have gained over 20 pounds in weight."

Price, 50c a box at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

Rate War in Progress

Washington.—Prospect of an aggressive steamship rate war at Vancouver affecting all commodities carried between Canada and the Orient was reported to the Department of Commerce by American Consul-General Ryder at Vancouver.

Has Faith in Future

King George Says People Will Overcome Present Conditions

London.—"I am strong in my faith that the patience and energy of the people, combined with a spirit of confidence and good understanding among all classes will overcome the distressing conditions which have prevailed during the past years."

This is the text of a message which His Majesty the King sent to the Associated Chambers of Commerce at its meeting here.

Right Hon. Stanley Baldwin, president of the Board of Trade, announced that the coal trade had been put on an economic basis and in the past few months had regained an export trade which no man thought possible a short time ago.

Japanese Bank Assigns

Vancouver.—The Nippon Kaisha Sha, Limited, a Japanese bank here operated under a provincial trust company charter, has closed its doors. An assignment has been made. Assets are said to be about \$225,000 and the liabilities, \$240,000.

Ottawa.—It is not the intention of the Government to continue the Federal Grain Enquiry Commission as at present constituted. This information was given to the House by Hon. J. A. Robb, minister of trade and commerce, in answer to a question asked by Hon. H. H. Stevens.

That there might be a new commission appointed, however, was indicated when Mr. Robb stated that there was an appropriation in the estimates for 1922-23 to defray the expenses of such a commission.

Mr. Stevens asked if the Government "has instructed the Board of Grain Commissioners to investigate certain violations of the Canada Grain Act, alleged to have been committed by certain terminal elevator companies and sworn to before the Royal Grain Inquiry Commission."

The minister replied that if specific charges of irregularity were made the Government would investigate them. The late Royal Grain Inquiry Commission had made no report to the Government.

Sciatica for Years But is Well Again

WHY C. LACHANCE RECOMMENDS
DODD'S KIDNEY PILLS

Quebec Man Relieved of Long Suffering Shouts Praises of Dodd's Kidney Pills.

Petite Valley, Gaspé Co., Que.—(Special).—Mr. Charles Lachance, a well-known resident here is shouting the praises of Dodd's Kidney Pills. "I had sciatica and rheumatism," Mr. Lachance states. "My trouble started from a cold. I perspired freely with the least exertion. My limbs swelled."

"Then came the sciatica and rheumatism and for five years I was a sufferer."

"I took six boxes of Dodd's Kidney Pills. Now my health has come back and I tell everyone who suffers from sciatica, rheumatism or kidney trouble to use Dodd's Kidney Pills."

Dodd's Kidney Pills act directly on the kidneys. They put the kidneys in condition to strain the uric acid out of the blood. Without uric acid in the blood there can be no rheumatism or sciatica.

Ask your neighbors if Dodd's Kidney Pills do not make healthy kidneys.

Attempted Bank Robbery

Winnipeg.—An unsuccessful attempt was made by two young men to rob the branch of the Bank of Nova Scotia at St. James, a suburb of this city. One of the bandits fired at R. W. Doig, the teller, who groped for his revolver on being commanded to throw up his hands. His head was grazed above the ear. The two men escaped.

London Tube Extension

London.—Work for 20,000 men for two years will be provided by the underground groups of railways in this city which soon will commence important extensions.

CORNS

Lift Off with Fingers

Doesn't hurt a bit! Drop a little "Freezone" on an aching corn, instantly that corn stops hurting, then shortly you lift it right off with fingers. Truly! Your druggist sells a tiny bottle of "Freezone" for a few cents, sufficient to remove every hard corn, soft corn, or corn between the toes, and the calluses, without soreness or irritation.

An Easter Message

Easter comes again. It is a time of greeting, a time of returning life, a time of promise! What does it mean to you?

It means much to the Christian world since it is the foundation festival upon which the Christian religion is up-raised. In its origin it is not a Christian festival, since Oriental peoples used it as a celebration heralding the coming of Spring—signifying life after death—centuries before the coming of the Messiah. It is now, however, a Christianized festival, filled with a spiritual content, and is universally held sacred as expressive of the Consecration of Jesus, the Love of God, the triumph of Righteousness and the Immortality of the soul.

These are the central truths of the Eastertide as they are convincingly set forth in the simple but expressive language of the Gospel narratives. It is well that we should read again and again the strange and wonderful record of the first glad Easter. It is filled with the sorrow and agony of rejection and suffering, but is dominated by the joy unbounded of the Resurrection.

That glorious "first day of the week" vindicated the claims made by Jesus in His lifetime, proved His Messiahship, and enkindled a spiritual allegiance and a triumphal joy in the hearts of His followers. In that joy they went forth to preach the Gospel, to establish righteousness, and to found the Kingdom of God on earth.

As Christians, may we express our allegiance to our Master by holding in remembrance His consecration and sacrifice, and, so, may we experience afresh, and with renewed power, the joy of the Resurrection, lifting us above the material things of life and leading us into the richer inheritance of things spiritual.

MONITOR

Wrigleys Alberta Directory for 1922 has been issued, and forms an excellent book of reference of the Province.

The directory proper covers 2136 cities, towns, villages and settlements, treated alphabetically, with a description giving location in section, township, range, Federal and Provincial Electoral districts, Municipality number, population, express, telegraph, telephone and banking point, value of lands, crop averages, etc.

The classified business directory indexes the business interests of the Province under some 600 headings, and is excellent for quick reference.

In addition to these main sections, there is an introductory having to do with the early history, resources and development of Alberta. Among the wide variety of subjects treated are included area and surface, agricultural resources, with statistical tables and articles on mixed farming, dry farming, irrigation, crops, live stock, etc.

Follows an outline of the government of the Province, and its judicature. Government departments and officials are listed, indexing the scope and personnel of all departments.

Gleaned from the directory are the following facts: Alberta is 750 miles long by from 200 to 450 wide, has an area of 255,585 square miles, has 86,084 farms under cultivation, more sheep than the other three western Provinces combined, has 423,838 dairy cows, 523,599 sheep, and 70,000 flocks of poultry, has the largest coal area in Canada.

Ten dollars is the subscription price of the directory, and it is published by the Wrigley Directories Ltd.

WORLD HAPPENINGS BRIEFLY TOLD

Nova Scotia obtained a harvest from the sea last year valued at \$9,000,000, according to the report of the commissioners of fisheries. The yield for the previous year was valued at \$15,000,000.

For the avowed purpose of making McPherson, Kan., a flyless city, the city commission has enacted an ordinance laying down strict sanitary rules, the violation of which result in a heavy fine.

A unique, taxicab organization directed and operated solely by women, has been formed in Vancouver under the presidency of Mrs. Ralph Smith, member of the Provincial Legislature. The company has been given a provincial charter.

According to a Reuter cable from Nairobi, British East Africa, 37 natives who took part in the recent uprising which was put down by native troops were sentenced to terms ranging from three months to two years rigorous imprisonment.

His Excellency the Governor-General Baron Byng of Vimy, has notified George Black, M.P. for the Yukon, that he intends to visit that territory this summer. Captain Black so telegraphed city authorities at Dawson City, Y.T.

Five of the nine men held by the coroner's jury as responsible for the collapse on January 25 of the Knickerbocker Theatre, Washington, with the loss of 98 lives, were indicted by the grand jury on a charge of manslaughter with the four other men exonerated.

The Federal Treasury was enriched by \$1,833,071.71 in coal royalties from Dominion lands from April 1, 1906, to March 31, 1921. During the same period, coal royalties from school lands in Saskatchewan and Alberta totalled \$183,819.66. This information was tabled in the House of Commons.

The Council of the Empire Press Union, in London, passed a resolution deploring the lack of adequate telegraphic communication and urgently pressing the Government to immediately carry out or support some scheme for an imperial chain obtaining general approval throughout the empire.

60,000,000 Trees Planted

More Seedlings Being Shipped This Year from Indian Head than for Past Five Years

The shipments of tree seedlings and cuttings going out this spring from the Dominion Forest Nursery Station at Indian Head, Saskatchewan, will be among the largest in the past five years. The kinds sent out are chiefly Manitoba maple, green ash, Russian poplar, willow, and caragana. They are used chiefly for planting shelter-belts on prairie farms. Since the nursery station was established about sixty million seedlings and cuttings have been distributed to prairie farmers.

MANY CHILDREN SICK, HOW TO TREAT THEM

The kiddies will get their feet wet, catch cold, get croup and give their mothers lots of trouble. With the first cough or sneeze, rub the little one's chest with Nerviline, rub it on plentifully. It can't harm. Then make a gargle with Nerviline and water, and have the child gargle for five minutes. Just at bed time, give the child ten drops of Nerviline in hot sweetened water. The result is fine, and next morning child is better. Nerviline is a great protection in the home. Large 35c bottles at all dealers.

Purple Taboo

At a marriage ceremony in Japan a dress of purple color is taboo, lest the mutual love of the bride and groom be soon lost, as purple is a color most liable to fade.

To have the children sound and healthy is the first care of a mother. They cannot be healthy if troubled with worms. Use Mother Graves' Worm Exterminator.

In Sweden a physician cannot sue for his fee, while in Belgium a lawyer is in the same position.

CATARRH

Catarrh is a local disease greatly influenced by constitutional conditions. HALL'S CATARRH MEDICINE is a Tonic, taken internally, and acts through the blood upon the mucous surfaces of the system. HALL'S CATARRH MEDICINE assists Nature in restoring normal conditions.

According to the Alaskan census bureau, the white population decreased 23.4 per cent between 1910 and 1920.

Western Land Sold by Government

Money Will Be Held in Trust for the Provinces

From September 1, 1905, to December 31, 1921, the Federal Government sold 5,538,878 acres of land in Saskatchewan for \$16,619,107, and school lands in the same province with an acreage of 1,457,274 for \$26,967,218 in Alberta, during the same period the Government sold 3,944,318 acres for \$11,773,264, and 954,082 acres of school lands for \$13,204,209.

DIET NOT EVERYTHING IN KEEPING HEALTHY

Your table may be loaded with food digestible and wholesome, yet you don't get strong. What's the trouble? The liver is lazy, stomach is overloaded, the bowels are not active. Relief is quickly supplied by Dr. Hamilton's Pills. They make weak sickly people strong and well because they keep the system clear of impurities. Those who regulate the system with Dr. Hamilton's Pills don't have indigestion or constipated headaches, they feel enlivened all over, because their system is kept in smooth running order. To revitalize and stimulate your whole being, to shake off lethargy and tiredness, nothing compares with Dr. Hamilton's Pills, which certainly bring good—looks, good spirits, good health, 25c all dealers, or The Catarrhzone Co., Montreal.

Why Irish Are Fighters

A certain diet specialist tells us that the Irish are a bellicose people, largely because they eat little meat but take a good deal of buttermilk and vegetables. The Balkan nations also are great fighters and at the same time are said to consume great quantities of buttermilk. He thinks if the Irish were to change their diet they would become much more peaceful. It seems strange how good an argument can be formed out of a few non-essential facts and a vivid imagination.—Christian Guardian.

KEEP BABY WELL IN THE SPRING

Mothers who have little ones in the home find the Spring a time of great anxiety. At this season conditions make it necessary to keep the baby indoors. He is often confined to overheated and badly ventilated rooms and catches colds which rack his whole system. To guard against this a box of Baby's Own Tablets should be kept in the house and an occasional dose given the baby to keep his stomach and bowels working regularly. This will prevent colds; constipation or colic, and keep baby well. The Tablets are sold by medicine dealers or by mail at 25c a box from The Dr. Williams' Medicine Co., Brockville, Ont.

World's Available Water Power

A new French estimate of the world's water power resources credits the United States with 30,000,000 available horsepower; Canada with 25,000,000; Norway with 7,500,000; Sweden with 6,750,000; and Italy and Spain with about 5,000,000 each.

Regina Cattle Sale Very Successful

Prize Winning Shorthorn Bull Sells For \$1,100.00

Considering financial conditions, the directors of the Saskatchewan Cattle Breeders' Association are very well pleased with the prices obtained at the pure-bred cattle sale recently held in Regina. Pure-bred females did not sell as readily as pure-bred bulls. The demand for bulls, however, was steady, and the bidding brisk.

An average of \$200.00 each was secured for 85 Shorthorn bulls, and the top price for Shorthorns and for the sale was \$1,100.00, which was paid for Mars Avon 2nd, sold by a Prince Albert man and purchased by a man from St. Walburg. This bull had been a prize winner at the International last fall.

The average price for Hereford bulls was \$162.00 on 20 head, with a top price for this breed of \$375.00. Aberdeen Angus bulls sold at an average price of \$170.00 and the top price of \$235.00 was paid for Broadus Blackburn 7th, sold by G. N. Buffum, of Bechar, and purchased by Mr. Hume, of Manitoba.

Over 200 head were sold through the ring, and the breeders who had well bred bulls and had them in good condition were well satisfied with the prices obtained. The better bull campaign is having its effect in increasing the demand for real good bulls.

Separation, But No Alimony

A peaceful, quiet separation, no damage done, everybody happy again—that's the situation when you divorce your corns. Try Putnam's Corn Extractor. Acts like magic, no pain, no failure, success every time. Refuse a substitute for "Putnam's," 25c everywhere.

An Amazing Watch

Has Four Dials and Runs for Thirty Hours

One of the most remarkable watches in the world was recently constructed by a leading British firm. The front dial of the watch, upon which ordinary time is indicated, carries four small dials. One of these shows the days of the week and the date of the month. The other forms a perpetual calendar, indicating the first, second, third and leap years. No. 3 dial indicates the phases of the moon and No. 4 acts as a recording chronograph showing hours and minutes, seconds and fifths of seconds. There is also an indicator and pointer which shows at any time to what extent the watch is wound up. The main dial also carries a further hand distinguished by a small sun near its outer end. This hand shows the position of the sun before or after clock time. The watch strikes the hours and the quarters and repeats the hours, quarters and minutes at any time desired. On the back of the watch there is a dial showing the sidereal day of 24 hours. It also carries a star chart or planisphere. The point on the chart corresponding to the North Pole is set at the centre of this dial and the exposed portion of the dial reveals the portion of the sky visible in the latitude in which the watch is used. The movements of the watch are arranged in three tiers and are fitted throughout with diamond and ruby jewels. The watch runs for 30 hours with one winding. It was constructed to order and cost one thousand guineas.

The Bride's First Breakfast

"John, dear," began the bride tearfully, "breakfast is on the table—but—just isn't it just too annoying—look at the bread!" "Why," exclaimed the bridegroom in surprise, "it isn't baked at all!" "I know it isn't dear; that's just it. And I p-p-put lots and lots of baking powder in it, too!"

The worms that infest children from their birth are of two kinds, those that find lodgement in the stomach and those that find lodgement in the intestines. The latter are the most destructive, as they cling to the walls of the intestines and if not interfered with, work havoc there. Miller's Worm Powders dislodge both kinds and while expelling them from the system serve to repair the damage they have caused.

Wicks

If you dislike the smell of the wick as it burns in the lantern boil it in vinegar and thoroughly dry before using.

Minard's Liniment prevents Spanish Flu

Nothing else known to science performs the same marvellous healing and dispels disease from the tissues as Zam-Buk does. This pure herbal balm takes the fire out of a wound or sore, kills and repels germs and grows fine new skin. Zam-Buk is acknowledged

THE WORLD'S GREATEST HEALER

Didn't Know

Vicar (at village concert).—Miss Jones will sing again—"I cannot tell you why!"—Edinburgh Scotsman.

A Household Medicine.—They that are acquainted with the sterling properties of Dr. Thomas' Electric Oil in the treatment of many ailments would not be without it in the house. It is truly a household medicine and as it is effective in dealing with many ordinary complaints it is an inexpensive medicine. So, keep it at hand, as the call for it may come most unexpectedly.

Radio Telephones in B.C.

A radio telephone service for the British Columbia interior, for coast-wise vessels and deep-sea ships as far out as 2,500 miles at sea has been inaugurated. It is planned to give world news, concerts and speeches to distant parts.

Externally or Internally it is Good.—When applied externally by brisk rubbing, Dr. Thomas' Electric Oil opens the pores and penetrates the tissue, touching the seat of the trouble and immediately affording relief. Administered internally, it will still the irritation in the throat which induces coughing and will relieve affections of the bronchial tubes and respiratory organs. Try it and be convinced.

Something like 45,000 stitches are required to make the ordinary suit of clothes.

COULD HARDLY STAND AT TIMES

Hips, Back and Legs Would Have That Tired Ache

Everett, Washington.—"For several years I have had trouble with the lowest part of my back and my hips and my legs would ache with that tired ache. I could hardly stand on my feet at times. I was always able to do my work although I did not feel good. I saw Lydia E. Pinkham's Vegetable Compound advertised and having heard several praise it I decided to try it. I feel first-rate at the present time. It has done wonders for me and I keep it in the house right along. I always recommend it to others who are sick and ailing."—Mrs. J. M. SIBBERT, 4032 High St., Everett, Washington.

To do any kind of work, or to play for that matter, is next to impossible if you are suffering from some form of female trouble. It may cause your back or your legs to ache, it may make you nervous and irritable. You may be able to keep up and around, but you do not feel good. Lydia E. Pinkham's Vegetable Compound is a medicine for women. It is especially adapted to relieve the cause of the trouble and then those annoying pains, aches and "no good" feelings disappear.

It has done this for many, many women; why not give it a fair trial—now.

BOOK ON DOG DISEASES and How to Feed Mailed Free to you on Application to H. CLARK & SONS, 125 West Fourth Street, U.S.A.

W. N. U. 1415

Mr. Jenkins Took a Cracked Club To Tame Lions

The exhibition ended rather badly. It very nearly was a big day for the lions and a sad day for Mr. Jenkins—all for want of proper care in getting ready.

Many a man who has business to do and a living to make and a job to fill is as careless how he feeds his body as Mr. Jenkins was in picking out a club.

Some foods are too heavy, some are too starchy, many lack necessary elements and so starve the body—and many load the system down with fermentation and auto-intoxication.

Grape-Nuts helps build health and strength. It contains the full richness of wheat and malted barley, including the vital mineral elements, without which the body cannot be fully sustained. Grape-

Nuts digests quickly and wholesomely. Served with cream or good milk, it is a complete food—crisp and delicious.

Grape-Nuts is just the food for those who care to meet life's situations well prepared in health. Order Grape-Nuts from your grocer today. Try it with cream or milk for breakfast or lunch, or made into a delightful pudding for dinner.

Grape-Nuts—the Body Builder

Horse Shoe School 3 p. m.
Monitor Church 7.30 pm
Sunday-school in the church at 12 o'clock noon.

Everyone is cordially invited to attend these services.

St. Laurence Church

MONITOR

Rev. W. S. Wickenden B. A.

The Rev. W. S. Wickenden will conduct Divine Service (D. V.) Sunday next, as follows:

Divine Service at
St. Laurence Church 7.30 p. m.
A bright, congregational service. All welcome.
Sunday School in St. Laurence Church at 11 a.m.

Choir Practice, Monitor, Thursdays 8 p.m.

Boys' Club Sundays at 11 a.m. Mondays 7.30 to 9.30 p. m.

PLOW SHARES

Genuine Oliver, Hamilton and P. & O.
Plow Shares

We compete with the Mail Order Houses in price, and sell a heavier share, better quality and one that Will Fit.

We stock both the Soft Center and the Crucible Steel Shares.

Soldier Settlement and Irrigation

Irrigation is coming into its own in Western Canada. Pioneers of the older provinces began with an axe and an ox team and were skeptical of the farmers becoming their own rain makers. Now the irrigated districts such as the Okanagan Valley, British Columbia, not long since a desert, bloom like a rose through the vitalizing wealth of the waters of irrigation. A large acreage that is now being won from nature is the soldiers' settlement land in the Southern Okanagan - a 2200 acre tract that is of national interest because of its strategic location and the engineering skill required to make it of service to the soldier settlers. A motor trip through the settlement revealed a country rich in scenic beauty, interesting in old land marks and marvellous in present activity of transforming a wilderness into a garden. It lies in a lovely valley, extending from Vaseaux Lake to the International Boundary. The northerly part of the settlement is 22 miles from Penticton.

Water for the irrigation is supplied from the Okanagan river which, at point of diversion, is about three-quarters of a mile below Vaseaux Lake and has a width of 200 feet. A concrete dam raises the surface of the water 8 feet. The system has been built in a very permanent way with concrete lined ditches which prevent seepage losses, concentration of mineral salts and water logging. The canal is 18 feet wide on top, five and a half feet deep and capacious enough to run a boat with a flow of 170 cubic feet per second. Eleven miles of the project is finished, 5 miles partly done and when finished, 22 miles of canal will be built to the Boundary. From the varying disposition of the topography, many engineering problems and difficulties arose—problems that were unique in engineering in America. Various experiments had to be resorted to which included the use of great wood stave pipes and riveted steel pipes, some 50 inches in diameter.

An example of the immensity of the task as well as of the engineering skill required is the construction of thirteen flumes in the nine miles from the intake to the cement pipe works. There will be about 1,200 acres of irrigable land in the plot and the land is being developed under the most favorable conditions

(1) Intake gates and dam on Okanagan River.
(2) Main canal, near Intake.

with an ample supply of water.

A plant for the manufacture of concrete pipes is one of the extensive industries of the settlement. Twelve miles of pipe will be built this season by 26 men, with an output of 650 feet of piping a day. A portion of the land was put on sale last spring and about 600 acres sold. The first orchard was planted by Perley Simpson, a returned soldier, belonging to the construction camp.

The town of Oliver will be the administrative centre of the district. It is one of the few planned towns in Canada and is not being developed in a haphazard way with speculation in subdivisions. The Government have placed on the market just what is needed, and this will be sold off before further land is open for sale. There are areas for a park, for a city hall, for a school, for various public buildings and space for all that is required for an up-to-date town.

The Oliver recreation grounds are across the river from the town, the present site of the big irrigation construction camp. The young men built a permanent recreation hall after being supplied with lumber and various requirements by the Government. An athletic association was formed and now the hall, a fine structure, 50 by 70 feet, serves the fast growing community

as a centre for concerts, dances, basketball and general sport.

A demonstration plot has been established about five miles south of Oliver, on the main highway where 24 acres are now under cultivation with six acres in young trees which will be sold to the soldier settlers.

Leaving Penticton, on our trip to Oliver, each interest beckoned to a fresh delight. Winding in among the hills, we sped around Dog Lake, steamer "York" on the shore, will be used by the Kettle Valley Railway, from Penticton to join with rail again at Okanagan Falls on the way to Oliver and the Boundary. Passing Vaseaux Lake, through the stock raising country there was a wealth of beautiful scenery—the water lilies on the lake, the wild swans who make their home there all the year around, the overhanging rock on the motor road, all added to the beauty of the scene.

A point of interest was the big construction camp where we had dinner at the headquarters staff dining room. It is a regular settlement with even the hen and her little chickens a part of the scene. 311 men of the camp make their home there and it will be the place of the camp for the next two years. For the workmen there is an immense dining tent and 150 men are served at once.—C. G.

JUST ISSUED

Wrigley's Alberta Directory for 1922

Official data covering agriculture, lands, mining, timber, fishing and public works.

Describing 2136 cities, towns, villages and settlements within the Province, giving location, distances and directions from larger points, how reached, with a synopsis of local resources, populations, etc., followed by an alphabetical directory of all business and professional firms.

The business interests of the Province, including manufacturers, wholesalers and retailers, listing all products from the raw material to the finished article, are classified under 600 headings, alphabetically arranged according to towns. A list of popular trade names, brands and trade marked goods, either manufactured or represented in Alberta, alphabetically arranged.

Almost anything which anyone desires can be purchased in Alberta. Every dollar spent here assists the Province. You can help by trading with Alberta merchants. If you are unable to purchase what you desire in your local town or community, then consult Wrigley's Classified Business Directory, a copy of which can be secured at all first class stores, in fact, most of the live business concerns have a copy of Wrigley's 1922 Alberta Directory.
